THE catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 (Musical Compositions) would necessitate, however, a possible search through 52 alphabets in each year to locate any given title, this inconvenience is avoided by printing all the music of each month in one alphabet, so that a search for any musical work deposited for copyright during the year requires an examination of only 12 indexes instead of 52, as formerly.

Entries are arranged alphabetically by title. But classical music, music the title of which is the name of a class without any differentiating word (e. g., waltz, mazurka, etc.), and collections with only such general titles as "Fünf studien," "12 études élémentaires," etc., are arranged under the name of the composer instead of the title.

To save space, the copyright notice after each title is abbreviated. Every entry in the Catalogue implies the deposit of copies, the title of no musical work being included in the Catalogue unless copies are on file; but if the copies have been received on the same date as the day of entry, the statement of the receipt of copies is not made but is understood.

The notice after the first title, if printed in full, would read "Copyright by Jos. Aibl Verlag, Leipzig, Germany. Class C, XXc, no. 194174, Nov. 16, 1908; 2 copies received Nov. 16, 1908."

AND OF JUNE 30, 1906

PART 3:
MUSICAL COMPOSITIONS
INDEX

NEW SERIES, VOLUME 4

Nos. 5–8

FEBRUARY, 1909

WASHINGTON
GOVERNMENT PRINTING OFFICE
1909

THE catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 (Musical Compositions) would necessitate, however, a possible search through 52 alphabets in each year to locate any given title this inconvenience is avoided by printing all the music of each month in one alphabet, so that a search for any musical work deposited for copyright during the year requires an examination of only 12 indexes instead of 52, as formerly.

All entries are arranged alphabetically by title, with the exception of classical music, collections having general titles, such as "Fünf studien," "12 études élémentaires," etc., and music, the title of which is the name of a class without differentiating word (e. g., "Waltz," "Mazurka," etc.), which are arranged under the name of the composer instead of the title.

To save space, the copyright notice after each title is abbreviated. Every entry in the Catalogue implies the deposit of copies, the title of no musical work being included in the Catalogue unless copies are on file; but if the copies have been received on the same date as the day of entry, the statement of the receipt of copies is not made but is understood.

The notice after the first title, if printed in full, would read "Copyright by Joseph E. Frank, Minneapolis, Minn. Class C, XXc, no. 196271, Dec. 19, 1908; 2 copies received Dec. 19, 1908."

A LA BIEN-AIMÉE; valse par Eduard Schütt, revised and fingered by William Mentor Crosse, for piano. [1920

PART 3:
MUSICAL COMPOSITIONS
INDEX

NEW SERIES, VOLUME 4

Nos. 9–12

MARCH, 1909

WASHINGTON
GOVERNMENT PRINTING OFFICE
1909

THE catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 (Musical Compositions) would necessitate, however, a possible search through 52 alphabets in each year to locate any given title this inconvenience is avoided by printing all the music of each month in one alphabet, so that a search for any musical work deposited for copyright during the year requires an examination of only 12 indexes instead of 52, as formerly.

All entries are arranged alphabetically by title, with the exception of classical music, collections having general titles, such as "Fünf studien," "12 études élémentaires," etc., and music, the title of which is the name of a class without differentiating word (e. g., "Waltz," "Mazurka," etc.), which are arranged under the name of the composer instead of the title.

To save space, the copyright notice after each title is abbreviated. Every entry in the Catalogue implies the deposit of copies, the title of no musical work being included in the Catalogue unless copies are on file; but if the copies have been received on the same date as the day of entry, the statement of the receipt of copies is not made but is understood.

The notice after the first title, if printed in full, would read " Copyright by João M. Arroyo, Lisbon, Portugal. Class C, XXc, no. 199218, Jan. 22, 1909; 2 copies received Jan. 22, 1909."

PART 3:
MUSICAL COMPOSITIONS
INDEX

NEW SERIES, VOLUME 4

Nos. 13–17

APRIL, 1909

WASHINGTON

GOVERNMENT PRINTING OFFICE

1909

THE catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 (Musical Compositions) would necessitate, however, a possible search through 52 alphabets in each year to locate any given title this inconvenience is avoided by printing all the music of each month in one alphabet, so that a search for any musical work deposited for copyright during the year requires an examination of only 12 indexes instead of 52, as formerly.

All entries are arranged alphabetically by title, with the exception of classical music, collections having general titles, such as "Fünf studien," "12 études élémentaires," etc., and music, the title of which is the name of a class without differentiating word (e. g., "Waltz," "Mazurka," etc.), which are arranged under the name of the composer instead of the title.

To save space, the copyright notice after each title is abbreviated. Every entry in the Catalogue implies the deposit of copies, the title of no musical work being included in the Catalogue unless copies are on file; but if the copies have been received on the same date as the day of entry, the statement of the receipt of copies is not made but is understood.

The notice after the first title, if printed in full, would read " Copyright by Breitkopf & Härtel, London, England. Class C, XXc, no. 202606, Mar. 10, 1909; 2 copies received Mar. 10, 1909."

PART 3:
MUSICAL COMPOSITIONS
INDEX

NEW SERIES, VOLUME 4

Nos. 18–21

MAY, 1909

WASHINGTON
GOVERNMENT PRINTING OFFICE
1909

THE Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 (Musical Compositions) would necessitate, however, a possible search through 52 alphabets in each year to locate any given title, this inconvenience is avoided by printing all the music of each month in one alphabet, so that a search for any musical work deposited for copyright during the year requires an examination of only 12 indexes instead of 52, as formerly.

All entries are arranged alphabetically by title, with the exception of classical music, collections having general titles, such as "Fünf studien," "12 études élémentaires," etc., and music, the title of which is the name of a class without differentiating word (e. g., "Waltz," "Hymn," etc.), which are arranged under the name of the composer instead of the title.

To save space, the copyright notice after each title is abbreviated. Every entry in the Catalogue implies the deposit of copies, the title of no musical work being included in the Catalogue unless copies are on file; but if the copies have been received on the same date as the day of entry, the statement of the receipt of copies is not made but is understood.

The notice after the first title, if printed in full, would read "Copyright by N. Simrock, G. m. b. H., Berlin, Germany. Class C, XXc, no. 204917, Apr. 8, 1909; 2 copies received Apr. 8, 1909."
